Building Collections For Collectors

It's been a great year for the paper money hobby and business so far in 2011. From all appearances this auction will be a sign of continued strength and realignment of interests. Collectors continue to hunt for a good store of value that our field offers. While interest rates remain low and most of the world tries to understand their financial future, collectors continue to enjoy their passion as previously unavailable material continues to become available at a more predictable rate of speed. As collectors must be careful to realize that many of us are specialists and may be willing to pay "anything" for that special item to fill that gaping hole, the next buyer may not understand your sentiment. I have seen this often with National Bank Notes which is my favorite part of the hobby.

I think we have rounded up a wonderful selection of material for our final floor sale of 2011, though we will have a large Knight Live sale in December. We have some fantastic US Type material from the Catalina Collection, the Rose Bell Collection (assembled along the Eastern seaboard during the 1955-1972 period), and all 644 notes are new to their various fields. We have wonderful Small Size stars and interesting Stocks, Bonds, Obsoletes and Fractionals. The George Fitzgerald MPC replacements are exceptionally rare and his Fort Wayne, Indiana Obsoletes and National Bank Notes are impressive and include significant rarities. Also included is a neat old-time deal of low charter numbers under 100 including a few goodies! The World Bank Note selection is large and includes the finest Honduras collection ever publicly offered as well as an important collection of Mongolia banknotes. The 1100 + lot selection in the Knight Live only sessions will provide individual items for the most budget minded of collectors!

Debbie, Eric and I look forward to seeing everyone at the new PDCA show in Rosemont, Illinois as we celebrate the 26th annual event.

Terms and Conditions

- Auction Basics. Auction Basics. This is a public auction sale ("Auction Sale") conducted by licensed and bonded Auctioneers, Lyn Knight Currency Auctions (hereinafter referred to as "Auctioneer" and at times as "Knight"), Eric Knight, Auctioneer - License #AU3267. Bidding in this Auction Sale constitutes acceptance by you ("Bidder") of all the Terms and Conditions of Auction Sale stated herein. Bidders may include consignors who may bid and purchase lot(s) in the Auction Sale consigned by the consignor or by other consignors pursuant to their consignment agreement with Knight ("Consignor" and "Consignors"). A Consignor that bids on their own lots in the Auction Sale may pay a different fee than the buyer's premium charged to all other buyers. Knight reserves the right to include in any auction sale its own material as well as material from affiliated or related companies, principals, officers or employees. Knight may have direct or indirect interests in any of the lots in the auction and may collect commissions. THE TWO PRECEEDING SENTENCES SHALL BE DEEMED A PART OF THE DESCRIPTION OF ALL LOTS CONTAINED IN THE CATALOGUE. Pursuant to a separate agreement with Knight, Consignors or their agents may be permitted to bid on their own lots in the sale and may receive a rebate commission in whole or part if successful. Where the Consignor has re-purchased a lot and the lot is either returned to the Consignor or otherwise dealt with or disposed of in accordance with the Consignor's direction, or pursuant to contractual agreement, Knight reserves the right to so note in the Prices realized or to omit a price from the prices realized. Knight may bid for its own account at any auction. Knight may have information about any lot that is not known publicly, and Knight reserves the right to use such information, in any manner determined solely by Knight and for the benefit of Knight without disclosing such information in the catalog, catalog description or at the auction. Bidder acknowledges and agrees that Knight may not be required to pay a Buyer's Commission, or other charges that other Bidders may be required to pay and may have access to information concerning the lot(s) that is not otherwise available to the public. Any claimed conflict of interest or claimed competitive advantage resulting therefrom is expressly waived by all participants in the Auction Sale. Lot(s) may carry a Reserve. A Reserve is a confidential price or bid below which the Auctioneer will not sell an item or will re-purchase on behalf of the Consignor or for Knight.
- 2. Descriptions and Grading. Bidder acknowledges as follows: Grading and evaluation is an art and not a science. The grade, mintmark, quality, designation, variety, rarity, provenance, and historic relevance of any items in this sale are qualified statements of good faith opinion of Knight or its Consignor(s). It is possible that two people will not always grade the same item alike. Also, as market conditions change, grading standards change, and will most likely continue to do so in the future. Each Bidder's own examination of the item(s) is the criterion and not the grade represented by another. Every effort is made by Knight to determine provenance and authenticity. It is the Bidder's responsibility to arrive at a final conclusion prior to bidding. In any purchase or sale, the value of the item(s) is determined by the price. THE BIDDER HEREBY ASSUMES ALL RISKS OF VALUE CONCERNING ANY AND ALL PURCHASES. All photographs in this catalogue are of the actual items being sold but may not be the actual size or to scale. NO RETURNS OF THIRD PARTY GRADED NOTES.
- The Bidding Process. The auctioneer may open or accept the bidding on any lot by placing a bid on behalf of the Consignor or his or her agent, a Bidder by mail, telephone, internet or telefax; or any other participant in the Auction Sale. Mail bidders are urged to send their bids early, and are reminded that fax bids must be sent to (913) 338-4754 and received no later than 24 hours prior to the start of each session or live auction bidding in order to be recognized. No bids less than 60% of the low estimate will be considered or entered and no lots will be sold for less than face value. The Auctioneer may accept or decline any bid, challenge to any bid or bidding increment, as the Auctioneer in their sole discretion shall determine. Bids must be for an entire lot and each lot constitutes a separate sale. No lot will be broken up unless otherwise permitted by the Auctioneer. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise. It is unlawful and illegal for Bidders to collude, pool, or agree with another Bidder to pay less than the fair value for lot(s). Bidders in the Auction Sale acknowledge that the law provides for substantial penalties in the form of treble damages and attorney's fees and costs for those who violate these provisions. All material shall be sold in separate lots to the highest Bidder as determined by the Auctioneer. If any dispute arises, Auctioneer shall have the right to rescind the acceptance of the bid and place the lot(s) for Auction Sale again. Auctioneer's decision shall be final. For the Mail and Internet Bidder's protection, no "unlimited" or "buy" bids will be accepted. When the identical bids are received for a lot, preference is given to the first bid received as determined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder and Telephone Bidder must bid higher than the highest mail bid to be awarded any lot. Auctioneer reserves the right to refuse any bid, to reduce any mail bid received, to open the bidding of a lot at any level deemed appropriate by the Auctioneer and to determine the prevailing bid, at his sole discretion. THIS IS NOT AN APPROVAL SALE. Bidders who physically attend the Auction Sale, either personally or through an agent ("Floor Bidders") should carefully examine all lots which they are interested in purchasing. Bidders who bid by telephone, either personally or through an agent, receive a similar benefit as Floor Bidders, in being able to actively participate in the live Auction Sale ("Telephone Bidders"). Therefore, except as otherwise provided in these Terms and Conditions of Auction Sale, NO LOT MAY BE RETURNED THAT IS PURCHASED BY A FLOOR BIDDER, A TELEPHONE BIDDER, AND OTHER BIDDERS WHO HAVE HAD THE OPPORTUNITY TO VIEW THE LOT(S), ANYONE PRESENTING KNIGHT WITH A RESALE CERTIFICATE OR OTHER EVIDENCE THAT THEY ARE ACTING AS A DEALER OR ANY THIRD PARTY GRADED NOTES. For Bidders by mail, telefax or internet, who have not had the opportunity to view the lot(s), if there is a material error in the catalogue description, the lot may be returned if written notice is received by Knight within five (5) calendar days of receipt of the lot(s). The lot(s) must be received by Knight no later than twenty-one (21) calendar days after the Auction Sale in the same condition the lot(s) were delivered to the Bidder, in their original containers. Late remittance constitutes just cause for revocation of all return privileges. All prospective Bidders who have had the opportunity to examine the lot(s) prior to the Auction sale personally assume all responsibility for any damage that Bidder causes while handling or examining lot(s). Knight shall have sole discretion in determining the value of the damage caused, which shall be promptly paid by the prospective Bidder. KNIGHT IS NOT RESPONSIBLE FOR ANY ERRORS IN BIDDING. A Bidder should make certain to bid on the correct lot and that the bid is the maximum (plus the Buyer's Commission) that he or she is willing and able to pay. Once the hammer has fallen and the Auctioneer has announced the winning Bidder, the Bidder is unconditionally bound to pay for the lot, even if the Bidder has made a mistake. Knight reserves the right to withdraw any lot at any time, even after the hammer has fallen, until the Bidder has taken physical possession of the lot. No Bidder shall have a right to claim any consequent damages if the lot is withdrawn, even after the Auction Sale.

- 4. Bidder Registration Required. All persons seeking to bid must have a catalogue and register to bid at the auction by completing a registration card or bid sheet. By submitting a bid, the Bidder acknowledges that Bidder has read the Terms and Conditions of Auction Sale, the descriptions for the lot(s) on which they have bid, and that they agree to adhere to these Terms and Conditions of Auction Sale. This agreement shall be deemed to have been made in Kansas. The bidder acknowledges that the invoice describing a lot by number incorporates the catalogue and Terms and Conditions of Auction Sale.
- Prices, Payment and Delivery. The Buyer's Premium of eighteen percent (18%) will be added to the total amount of all invoices when paid by any means OTHER than cash, check, bank wire or money order. The Buyer's Premium will be further discounted to fifteen percent (15%) when handled through our regular in-house procedures, including payments using cash, bank wire, money order or a good check (with pre-approval). Please note that credit card checks and cashier's checks are not acceptable forms of payment. No extra fees are added for using Knight Live, our live auction system. Payment is the same for Knight Live as it is for all other bidding methods. An international bank wire fee will be charged of \$37.50. A reacquisition charge may apply to Consignors pursuant to a separate agreement, which may be higher or lower than the Buyer's Commission. Unless otherwise agreed in writing, auction sales are strictly cash in U.S. funds payable through a bank in the United States. No credit card checks will be accepted as payment for auction lots. On any cash transaction or series of transactions exceeding \$10,000, Treasury form 8300 will be filed. Contact Knight for wiring instructions before sending a wire. Lots must be paid for the earlier of receipt invoice or delivery. Knight reserves the right to decline to release lots for which good funds have not yet been received. On any accounts past due, Knight reserves the right to extend credit and impose periodic charges. Bidder agrees to pay reasonable attorney's fees and cost incurred to collect on such past due accounts. Bids will not be accepted from those persons under eighteen (18) years of age without a parent's written consent which acknowledges the Terms and Conditions of Auction Sale herein and agrees to be bound thereby on behalf of the Bidder. Bidders personally and unconditionally guarantee payment that are or become owed to Knight. If a corporation is the Bidder, the corporate representative present at the sale shall provide Knight at the time of registration with a statement signed by each principal, director and officer that they each personally and unconditionally guarantee any and all current or future obligations owed to Knight or such other statement as may be acceptable to Knight, in the sole discretion of Knight. Bidders who have not established credit with Knight must furnish satisfactory credit references or deposit at least twenty-five percent (25%) of their total bids for that Auction Sale session(s) or such other amounts as Knight may, in its sole and absolute discretion, require before such bids will be accepted. Deposits submitted will be applied to purchases. Bidders agree to pay an additional fee for packing, handling, postage and insurance on lots mailed to them, which fee shall be determined by the value of the item(s) shipped and added to the total invoice as follows: \$8.50 for \$1 - \$300 shipments; \$15 for \$301 - \$500 shipments; \$19 for \$501 - \$1,999 shipments; \$27 for \$2,000 - \$10,000 shipments; \$34 for \$10,001 - \$25,000 shipments; \$47 for \$25,001 - \$50,000 shipments; \$57 for \$50,001 - \$100,000 shipments. For shipments valued over \$100,000 the fee will be determined at the time of the sale. Bidders outside the United States shall be invoiced for Knight's shipping costs (an additional \$10 Airmail handling fee will be added to International Bidders invoice), but agree to provide their own insurance on lots shipped to them (Knight shall not be responsible for nondelivery of lots shipped to addresses outside the United States). Any remaining deposits will be promptly refunded, upon clearance of funds. Knight will not assume responsibility for the shipping and packaging of certain larger items or items of a more fragile nature sold in this sale as determined by Knight. It is the Bidder's responsibility to contact Knight after the sale to make shipping and packaging arrangements. Due to the fragile nature of some lots, Knight may be forced to charge additional shipping and handling. Lots indicated as being "framed" are shipped at the Bidder's risk. Taxes, postage, freight charges, if applicable handling, insurance and Buyer's commission, and any other fees required by law to be charged or collected will be added to the invoice for any lot(s) that is invoiced to successful Bidders. On any tax not paid by Bidder which should have been paid, even if not collected Knight by mistake, error, negligence or gross negligence, Bidder agrees to promptly pay the same on demand together with any interest or penalty that may be assessed. Title to any lot remains with Consignor, any secured party of the Consignor, or Consignor's assigns, as the case may be, until the lot is paid for in full by Bidder. Knight reserves the right to require payment in full before delivering any lot to the successful Bidder. The RISK OF LOSS passes to the Bidder upon delivery of the lot(s).
- 6. Financial Responsibility. In the event a successful Bidder fails to make payment when due, Knight reserve the right to resell the lot(s) in a commercially reasonable manner, which may include a private sale. Bidder agrees to pay for the reasonable cost of such a sale, together with any incidental costs of sale, including reasonable attorney's fees and costs, cataloguing and any other reasonable charges. Bidder grants Knight or its assigns the right to offset any sums due, or found to be due to Knight, and to make such offset from any past, current or future consignment, purchases that are in the possession or control of Knight, or from any sums due to Bidder by Knight. Bidder further grants Knight a purchase money security interest in such items to the extent applicable. Bidder agrees that Knight and its assigns shall be a secured party with respect to items bought by Bidder and in the possession of Knight, to the extent of the maximum indebtedness, plus all accrued expenses attorney fees and costs, until the indebtedness is paid. Bidder grants Knight the right to file a UCC-1 financing statement on such items without need for Bidders signature and to assign such interest to any affiliated or related company or any third party deemed appropriate by Knight. If the auction invoice is not paid for in full when due per invoice terms, the unpaid balance will earn interest at the rate of one-and-one-half percent (1-1/2%) per month until it is paid in full. In the event this interest rate exceeds the interest permitted by law, the same shall be adjusted to the maximum rate permitted by law. Bidder agrees to pay all reasonable attorney's fees, court costs and other collection costs incurred by Knight or any affiliated or related company to collect past due invoices. Knight reserves the right to assign its interest to any third party.
- 7. DISCLAIMER AND WARRANTIES. NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS MADE OR IMPLIED ON ANY LOT. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY LOT EXCEPT FOR WARRANTY OF TITLE, AND IN THE CASE OF TITLE, AUCTIONEER IS SELLING ONLY THAT RIGHT OR TITLE TO THE LOTS THAT AUCTIONEER MAY HAVE BY VIRTUE OF THE CONSIGNMENT AGREEMENTS WITH CONSIGNORS AS OF THE AUCTION SALE DATE. PURCHASER HEREBY ASSUMES ALL RISKS CONCERNING AND RELATED TO THE GRADING OF A LOT.
 - a. All sales of items (1) viewed by Bidders in advance of a sale, even if the sale is by mail, telefax or internet, or (2) bid upon by Floor Bidders, Telephone Bidders and Bidders who present Knight with a resale certificate, out of state resale certificate, or similar evidence in acting as a dealer; ARE FINAL AND MAY NOT BE RETURNED.
 - b. Any and all claims that an item is not authentic, must be made in writing to Knight within five (5) calendar days after receipt of the item

- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container, as the case may be.
- d. Late remittance or removal of any item from its original container constitutes just cause for revocation of all return privileges.
- e. Grading or condition or other attributes of the lots may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of Knight. Knight shall not be bound by any prior or subsequent opinion, determination or certification by any independent grading service.
- f. All oral and written statements made by Knight and its employees (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of Knight has authority to vary or alter these Terms and Conditions of Auction Sale. Any alteration shall be effective only if in writing and signed by an officer of Knight authorized to do so.
- g. Bidders shall have no recourse against the Consignor for any reason whatsoever.
- h. Notwithstanding anything to the contrary in these Terms and Conditions of Auction Sale. LOTS LISTED IN THIS CATALOGUE GRADED BY ANY THIRD PARTY GRADING SERVICE MAY NOT BE RETURNED FOR ANY REASON WHATSOEVER.
- i. Bidder acknowledges that the market for currency and related collectibles is speculative, unregulated and volatile, and that prices may rise or fall over time. Knight does not guarantee that any customer buying for investment purposes will be able to sell for a profit in the future.
- 8. Waiver and Release. Bidder, for himself, his heirs, agents, successors and assigns, generally and specifically waives and releases, and forever discharges Knight, and its respective affiliates, parents, shareholders, agents, subsidiaries, employees, members of their respective boards of directors, and each of them, and their respective successors and assigns from any and all claims, rights demands and causes of actions and suits, of whatever kind or nature, whether in law or equity, whether known or unknown, suspected or unsuspected, which Bidder may claim to have with respect to and/or arising out of, or in connection with any challenge to the title to any goods purchased, the sale itself, and/or the auction, except where such reimbursement is otherwise authorized in these Terms and Conditions of Auction Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every claim, demand, cause of action and suit that may arise hereunder, and Purchaser hereby knowingly and voluntarily waives any and all rights and benefits otherwise conferred upon him by the provisions of Section 1542 of the California Civil Code, which reads in full as follows. "A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM MUST HAVE MATERIALLY AFFECTED HIS SETTLEMENT WITH THE DEBTOR."
- Disputes. If a dispute arises concerning ownership of a lot that has been bid upon, Knight reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and successful Bidder and any other applicable party, and in such event shall be entitled to its reasonable attorney's fees and costs. Knight reserves the right to postpone the Auction Sale or any session thereof for a reasonable period of time for any reason whatsoever. No Bidder shall have any claim as a result thereof, including incidental or consequential damages. Neither Knight nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms and Conditions of Auction Sale, the auction or the conduct thereof and in no event shall liability for any such failure exceed the purchase price, premium or fees paid. If the Bidder fails to comply with one or more of these Terms and Conditions of Auction Sale, then, in addition to all other remedies which it may have at law or in equity, Knight may at its sole option either (a) cancel the sale, retaining all payments made by Bidder as liquidated damages, it being recognized that actual damages may be speculative or difficult to compute, or (b) sell a portion or all of the lot(s) held by Knight, in a quantity sufficient in the opinion of Knight to satisfy the indebtedness, plus all accrued charges, and Knight may sell such portion at an auction sale or private sale conducted by Knight and charge a seller's commission that is commercially reasonable. More than one such sale may take place at the option of Knight. Notice of the sale shall be by U.S.P.S. Certified Mail, Return Receipt Requested to the address utilized on the Bid Sheet, Auction Consignment and Security Agreement or other last known address by Knight. The proceeds shall be applied first to the satisfaction of any damages occasioned by Bidder's breach then to any other indebtedness owed to Knight, including without limitation, commissions, handling charges, the expenses of both sales, reasonable attorney's fees, costs, collection agency fees and costs and any other costs or expenses incurred. Bidder is also liable to Knight if the proceeds of such sale or sales is insufficient to cover the indebtedness. Rights granted to Bidders under the within Terms and Conditions of Auction sale are personal and apply only to the Bidder who initially purchases the lot(s) from Knight. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.
- 10. General Terms. These Terms and Conditions of Auction Sale and the auction shall be construed and enforced in accordance with, and governed by, the laws of the State of Kansas, regardless of the location of the Auction Sale. Central Bank of Manchukuo J138 100 Yuan ONE HUNDRED SEVENTY NOTES; a research bonanza! Confucius/building; blocks 1-10. This entire group (in this and the next several lots) provides a large enough sample size to research possible watermark variety breakdown by block number. Single notes from blocks 18 (watermark Chinese characters), 22 (watermark not visible), and 31 (watermark man in clouds) are isolated as a template. One observer states that blocks up to [21] have Chinese characters, blocks 28 and higher have watermark man in clouds, and the rest may be without watermark. Perhaps in the haste of wartime production the printers used whatever paper was handy when making these notes; perhaps there was a more methodical approach. It is possible that notes "without" watermark actually have the watermark, but very faintly. Other variations exist, including shading. Most choice; some have moderate rippling, a few with a pinhole/pinholes, small stains, etc. We are pleased to offer a massive group of this type arranged by block number for ready perusal, starting with this lot. Sold as is; no returns. Avg. EF (400-800)

758 CT-193 40 Shillings July 1, 1775 Uncancelled
A lovely uncancelled example of this scarcer 1775 issue.
The print quality is superb and the embossing as high as a mountain top. There are a couple of pinholes in each corner from where the note was gently mounted long ago. Aside from that fact this beauty would be approaching the Ch./Gem grade. It's very scarce with Newman valuing this at \$500 in UNC.

January 25, 1781 A very intriguing piece of Connecticut
fiscal paper that is unlisted in Anderson and one which we
have not seen before. The normal typeset Pay Table Office
fiscal paper is brutally common but this one is entirely
handwritten. Written on laid paper and made out to Ralph
Pomeroy and signed by John Lawrence, Esq. as Treasurer.

NORTH CAROLINA

NC-65 10 Shillings April 4, 1748 In terms of both technical merit and eye appeal this is clearly one of the nicest examples we have seen of this scarcer low denomination 1748 North Carolina note. The paper is bright, the signatures bold and the left indent is nearly complete. There are some restorations in the top border and along the center fold but they are not distracting. With the hoard that was dispersed a few years ago there are so many ratty, pinned examples that it tarnishes the true stars like this one. NC-192 \$50 May 10, 1780 All of the denominations above \$25 are more desirable and carry higher catalog valuations with this being no exception. A bright and well centered example that has some light folds and a single filled pinhole. If you check auction results you will find that the \$50 denomination is about 10 times scarcer than the \$25 denomination. The Newman value of this highly coveted piece is \$600 in XF with no higher grade given. If you pass on this one please don't cry that you can't find another. XF/AU (500-1,000)

\$250 NC-195 May 10, 1780 A far scarcer high denomination note with only 1,000 printed. A well printed note with great eye appeal that is bright and fresh. A single corner tip fold accounts for the grade and precludes this from being a solid four-figure piece. As it is, it should test that level as the Newman value of \$750 in XF will be no match for an example of this astounding quality. Ch. AU (750-1,250)

835 \$300 May 10, 1780 "Aut Nunquam Tentes Aut Perfice (Either Finish or Never Begin)" is the motto found on this note. The Latin mottos found on these later issue North Carolina notes are quite interesting and an intriguing study all on their own. A well embossed example of this much scarcer high denomination note that lists for \$750 in XF and \$450 in VF in the Newman reference. Virtually the same grade as lot #18517 of the recent Heritage sale and that note realized \$632.50 in VF.

VF/XF (500-1,000)

836 NC-198 \$500 May 10, 1780 "Divitiae Republicae Dant Mihi Pretium (The Wreath of the Republic Gives Me Value)" is the wonderful motto found on this extremely scarce, high-denomination note. PA-176 5 Pounds April 10, 1775 This red and black printed note is the famed workhouse note. The notes were issued in order to raise money to build jails and correctional institutions. Philadelphia's city jail, Walnut Street Workhouse, newly built to alleviate crowding at the existing city jail, is illustrated on the back. Fully margined examples from this issue are actually quite scarce as there is usually a very tight margin at the top or bottom. There was only a printing of 1,667 for this note which is why Newman pegs this at \$350 in XF and \$700 in UNC.

RHODE ISLAND

RI-201 3 Shillings June 29, 1775 This is a rare note by any stretch of the imagination. We can't find any auction records from the past few years of any example from this rare issue. With only 2,000 printed it is no wonder that Newman lists this at \$1,500 in Fine and \$2,250 in VF. This note is probably an Apparent F/VF note which has been backed and with some scattered staining around the periphery. With that said this note is rare and wholly intact making it something really special.

F/VF (1,250-2,250)

RI-219 9 Pence January 15, 1776 We have done some research on this note and cannot find any recent auction results of this scarce piece. While the note has been backed and has an apparent grade of Fine it remains well signed and generally intact. Newman values this at \$1,500 in Fine which is likely a little high but not too far off as this is a potential four-figure item.

Fine (400-800)

RI-223 4 Shillings January 15, 1776

Another painfully scarce Rhode Island note which has been backed but remains primarily intact. The note is number 2312 out of 6000 printed. Newman values this at \$1,000 in VG and \$1,500 in Fine.

RI-241 \$1/16 September 5, 1776 While this is the most common denomination from this issue it is anything but common. The note is wholly intact with a couple of tears and small edge chinks. Decent print quality remains for a note that obviously saw its share of time in the channels of commerce. Newman values this at \$500 in VG and \$750 in Fine.

853 SC-151 20 Shillings April 10, 1778 A truly astounding example that has that desirable combination of rarity and grade. This is one of the scarce higher denomination notes that did not survive in sheet form like the lower denomination examples did. It is bright and well signed with a bold horse vignette and the look of an AU example. Newman lists this at \$2,000 in VF with no higher grade given. Essentially the same grade as the PCGS XF 45 PPQ that sold at auction recently for \$1,725 and we would expect a similar price here tonight. PCGS XF 40 (1,500-2,500)

SC-154 \$50 February 8, 1779 An incredibly well printed and wonderfully signed example of this note printed by Thomas Coram. Yet another stunning mythological vignette seen on the back with Atlas holding a boulder. A real eye-appealing note that is one of the nicest we have seen in some time. A couple of center fold splits are all that hold this from a PPQ designation. Newman lists this at \$1,500 in XF and \$3,500 in UNC. There has been a revival in the prices of Colonial Currency and this note should fit the bill.

855 SC-156 \$70 February 8, 1779 A lovely Coram note that is well signed and boldly printed. Very popular due to the vignette of Prometheus having his liver pecked away by a vulture. Very minor center fold edge splits are all that separate this note from a premium quality designation. Newman lists this at \$1,500 in XF which isn't particularly off the mark.

XF (1,000-1,500)

856 SC-158 \$90 February 8, 1779 A wonderful example from this ever-popular series whose notes were printed by Thomas Coram. This is a very popular denomination since the back depicts Hercules strangling a lion. A single center fold makes this a solid AU with just a couple of edge tears extending from the top margin. Newman values this at \$3,500 in CU which really isn't difficult to believe. Recent auction results have shown nice AU Coram notes to be back around the \$2,000 mark, which makes this apparent AU note somewhat less but not much.

VIRGINIA

859 VA-78a 2 Pounds July 17, 1775 This is a very scarce and desirable small format note with this being a far more challenging high denomination. Newman lists this at \$400 in VF and \$800 in XF which is unusually accurate for a change.

VF/XF (400-800)

VA-94 10 Shillings May 6, 1776 Not a terribly rare issue or denomination but just a stunning thing of beauty in terms of eye appeal. If we had to guess this note would grade somewhere around VF 30 at the services but that would hinder the thinking of some who would look at the number on the holder instead of the wonderful note in front of them. The eye appeal is that of a solid XF or better; Newman lists this at \$500 in XF.

VF/XF (450-650)

VA-95 12 Shillings 6 Pence May 6, 1776 A fully crisp, boldly signed and wonderfully printed example of this far scarcer denomination. This is the first of the scarcer high denomination notes and although the printing figures aren't much different, auction results prove what a rare piece this is, especially in this high grade. We cannot recall seeing a higher graded example in recent memory and the Newman value of \$500 in XF should actually prove to be woefully conservative.

XF (600-1,200)

VA-106 \$4 October 7, 1776 This note is a rare denomination, missing from even the massive Midnight Ride collection, and to find it in this state of preservation is really quite spectacular. The paper is as crisp and fresh as the day it was printed with superb signatures and exceptional paper quality. A single center fold and a handled corner are all that keep this note from achieving a price level of several thousand dollars. As it is, a solid four-figure price is a virtual certainty.

VA-149b \$7 May 4, 1778 This is a scarce issue and denomination which should not be overlooked by prospective bidders. It is lightly quarter folded with excellent margins, perfect centering and absolutely sublime printing. Auction appearances are few and far between which is attested to by Newman who lists the value at \$675 in VF. This note is far nicer than that and should bring far more money as well.

XF/AU (750-1,250)

866 VA-161 \$15 October 5, 1778 Another very scarce note indeed as it is unpriced in Newman in any grade. The note faces up as a gorgeous AU example with the grade looking to us like a solid XF. VA-170 \$100 May 3, 1779 These oversized Virginia notes have always been extremely popular with collectors. Due to their size, they got damaged very easily when folded. This note is no exception as there are a couple of tears along the vertical and horizontal folds but far less than what is typically seen and barely noticeable except for when the note is candled. The paper is fresh and bright with bold signatures remaining and excellent margins. Newman lists this at \$3,000 in VF with no higher grade given. While that value is likely high for a note with minor problems its technical grade and eye appeal should carry the day to a solid four-figure price.

VA-182 \$13 1/3 July 14, 1780 This is an absolutely stunning example of this Virginia rice paper issue which has a scarcer low denomination. These notes are tissue paper thin and they easily tore, had holes, etc. Problem-free examples earning the PPQ designation are simply rare and are highly coveted in the collecting community. This is about the highest grade note we can find of this denomination. Newman lists this at \$600 in XF which is likely realistic for a note with such eye appeal. PCGS VF 30 PPO (400-800)

VA-193 \$200 October 16, 1780 A wonderfully margined and boldly signed example of this later rice paper issue. A virtually problem-free example for an issue that is chronically plagued by problems due to the thin nature of the paper these were printed on. Newman lists these at \$225 in VF and \$550 in XF which seems reasonably accurate for a note in this state of preservation.

VF/XF (250-400)

VA-209b \$1,000 March 1, 1781 This is the highest denomination from this later Virginia issue and it has always been a very popular note with collectors. While it is certainly true that there are several repaired tears, this thick paper note has ample margins and excellent eye appeal for the grade.

917 T-39 \$100 June 20, 1862 Handsigned on the back by John Boston and dated July 24, 1862. Smaller margins but fully framed with a couple of small pinholes seen on the sides. If you check auction archive results you will see that while these train notes are quite commonly seen in the VF to AU grade range, they are actually much scarcer uncirculated.

T-42 \$2 June 2, 1862 As of this writing PCGS does not have a Population Report for Confederate notes but if they did we would be pretty sure this would be a Top Pop caliber note as T-42 is rarely found uncirculated. A bright and well signed example that is about as nice as one could hope for, considering that these rarely ever come with full margins. Trying to find a comparable example to this could prove to be a Herculean task, so do not miss out on this opportunity.

PCGS Ch. New 63 (750-1,250)

T-44 \$1 June 2, 1862 A truly special example of this T-44 type that is rarely seen in Ch. CU grade since it is almost always poorly trimmed on multiple sides. A deeply printed note with the type of eye appeal that one hopes to find in a type note.

This leaves collectors to scramble for the nicest Gems they can find and this is one of them. Perhaps even a smidge under-graded, this note has great margins and perfect centering on all sides. Definitely at the upper end of the Gem grading scale.

1059 Fr. 1328 50¢ Third Issue These hand-signed Third Issue notes are always extremely popular with collectors; this one is a real beauty. Huge margins and blinding bronzing make it very easy to see why this note is a Gem all the way.

1063 Fr. 1341 50¢ Third Issue This Type II Spinner note with "1" on the face is well centered and possesses bright bronzing. A deeply embossed example that should sail past its Green Sheet value of \$240.

PCGS Very Ch. New 64 (300-600)

1064 Fr. 1362 50¢ Third Issue A very well margined and deeply embossed example of this green-back Justice that is perfect for type.

Ch. AU (225-375)

Fr. 1368 50¢ Third Issue A very nice example of a much scarcer number. The surcharges are widely spaced and the "1" on face position indicator makes the attribution a Fr. 1368. Cavernous embossing and light handling make this a really satisfying example for someone who is looking to fill a vacant spot in his collection.

Ch. AU (400-800)

Fr. 1370 50¢ Third Issue This is a very desirable Justice fiber paper note that has excellent margins and bright bronzing. The Green Sheet value is \$850 in Ch. CU. 1068 Fr. 1374 50¢ Fourth Issue This Lincoln design is one of the most popular of all the Fractional type notes. This example has great originality and unusually broad margins and centering on all sides. Gem Lincolns are always four-figure notes as the Green Sheet value of \$1,450 will attest to.

Gem CU (1,500-2,500)

1069 Fr. 1374 50¢ Fourth Issue A really nice Ch. CU Lincoln note that would be a Gem if the top margin were a hair broader. With AU notes having realized \$500 recently at auction we would expect this pleasing note to bring double that amount.

Ch. CU (900-1,200)

1070 Fr. 1374 50¢ Fourth Issue This Lincoln Fractional type has become one of the most popular types for Fractional collectors. One could make a strong case for the Ch. CU grade as there are three sizeable margins and a tight fourth; this is very typical with notes of this type. With recent auction results showing AUs around the \$500 mark we would expect far better from this lovely note.

\$5 1934-D I Minneapolis I-A A virtually Top Pop example that is the key to the series as PCGS has graded two in 64 PPQ and a single note higher in 65 PPQ grade. Gigantic margins and perfect centering are found on this utterly original note. These routinely bring \$400-\$500 in this grade. PCGS Gem New 66 PPQ (450-650)

1256 \$10 1928-B **Dallas** K-A key to the 1928-B DGS series notes as evidenced by the Schwartz/Lindquist value of \$100 in VF, with no CU value given. Through the holder this note looks like a gorgeous Ch. CU example although closer inspection reveals a couple of light folds. These rarely appear at auction and when they do it is typically a scraggly VF but nothing with the allure of this piece. It is difficult for us to say what this note will be worth tonight but, rest assured, the winning bidder will be the one parading around with this note beaming with pride. PCGS Abt. New 50 (600-900)

\$10 1928-C G Chicago G-A A very well embossed and colorful example of this key early FRN series. If the top margin were a little broader we would not hesitate to proclaim this a Gem. \$10 1934-D* C Philadelphia All stars from this early FRN series are very scarce or rare with this Philadelphia note being no exception. Very few ever appear at auction and this is the top graded note in the PCGS Population Report for this Friedberg number. We don't like to quibble with grades but if this note is only Very Ch. CU then it must be at the very top of the requirements for that grade as it is astounding in every way and looks like a screaming Gem. PCGS Very Ch. New 64 PPQ (600-900)

\$10 1934-D* C Philadelphia C-A All stars from this series are quite elusive with the Philadelphia note appearing to be no exception. It has far fewer auction appearances than the more available New York and Chicago stars. This note has three great margins and deep embossing all around. The Schwartz/Lindquist guide marks this at \$500 in Ch. CU and we feel that this is reasonably accurate based on its real scarcity. Ch. CU (500-1,000)

IMPRESSIVE DALLAS 1934 \$5,000 ABOUT UNCIRCULATED

\$5,000 1934 K Dallas #K00000232A There was no Benny Binion of \$5,000 bills and consequently they are generally considered to be rarer than the \$10,000 notes, but they just don't have all those zeros, nor do they leave the distinction of being the highest denomination printed for non-bank-to-bank specific transactions. Make no mistake about it, the \$5,000 notes are even rarer than the \$10,000 notes as less have been recorded in several number studies, although they have yet to provide us as much data as that known on the \$10,000 bills. Here today we have this lovely PMG 55 About UNC example to sell. It's very high quality with great centering and a lovely appearance. This note is serial #232 of the 2,400 printed. In this economy, with very low interest rates, the cost of ownership of a rarity like this is much more a store of value rather than the risk of interest lost.

\$10,000 1934 NEW YORK FORMERLY BELONGING TO BENNY BINION & THE HORSESHOE CASINO

1340 \$10,000 1934 B New York #B00002157A Almost everyone that has ever seen or dreamed about having a \$10,000 bill has seen or heard of the infamous display of \$1,000,000 in cold cash that hung prominently at Benny Binion's Horseshoe Casino in Las Vegas, Nevada. Word has it that this display was built at two different times. I guess a million bucks in cold, hard cash would be tough to leave laying around. Now Benny and the display have gone the way of privately owned Las Vegas casinos but these 100 \$10,000 notes do remain. This auction gives you the opportunity to acquire one of the finest known examples. These notes were between glass for decades and when the display was opened some notes ended up with flaws, but that's not the case here. I can say this one is as nice as any of those survivors. It's been PCGS graded Gem New 65 and noted Ex: Binion Hoard. Each note lost some originality when they came out of the glass so it's not graded PPQ. There have been several studies done on the \$10,000 notes and it's clear there are few examples that exceed this note in quantitative terms of quality and appearance.

BREATHTAKING \$500 GOLD

1378 Amazingly fresh, gorgeous, yellow-gold overprint, exactly as intended and not always found even on ultra-high grade examples. Tons of embossing are evident; not only the overprint but from all printings. The paper color is delightfully original and uniform. Comments 'major restorations' reflects strengthening of the margins at the left, including a tiny bit of the upper and lower. To the naked eye, the color is a perfect match and the restoration only becomes apparent when backlit. The work is so good, that in the era before third party grading, the unscrupulous might not have disclosed the enhancement. Series 591 \$10 5/26/61 - 1/6/64 This is the highest denomination in the series. Face design is woman engraved by Arthur Wasserbach and back has allegorical woman with seal and globe. According to Schwan, "the denominations and lathe work were adopted from the back of the 1901 \$10 US note... the back edge designs and counters were taken from the Bank of the Philippine Islands 10 Pesos notes of 1912 to 1933." Despite light flattening, an overall quality example. From the George Fitzgerald Collection.

Series 591 \$10 5/26/61 - 1/6/64 Highest denomination of series. Lightly flattened. Still, quite desirable for this elusive type.

LARGE SIZE TYPE NOTES

DEMAND NOTES

1624 Fr. 7 \$10 1861 Very light, even use typifies this earliest "Greenback". The margins are adequate, the Treasurer's signature especially strong. The comment "multiple repairs and restorations", while probably accurate, cannot be located through the holder. A very pleasing example. This would serve as a terrific type note or addition to an advanced collection. Two different Fine 15s have brought between \$13,000 - \$16,000, per census information.

PCGS Fine 12 Apparent

(7,500-12,500)

LEGAL TENDER

1625 \$1 1862 A very attractive example of this early Legal Tender. It's quite fresh with excellent quality but the lower right border could have more margin. Census records are confusing because numbering has changed and varieties added. From the Rose Bell Collection.

PCGS Ch. New 63

(2,000-4,000)

1626 1862 Giant margins surround this perfectly impressed specimen with immaculate surfaces and vibrant colors. The paper wave and embossing jump through the encasement. Comments 'severed and tape repaired at left' are accurate, but skillfully performed and not immediately apparent. Everything a Ch. New note should have, and a bit more. PCGS Ch. New 63 Apparent (1,500-3,000)

This was also the design chosen for the earlier Demand Note \$20. This beautifully designed note has all of the traits used in this collection's formation. The centering is excellent as is the paper quality, except where it was restored along the upper right, hence the Apparent grade. A hoard of both \$10 and \$20 1862s were dispersed before I was in the business and many have, or had the same flaw. The fact is that they are beautiful and worthy of a special collection. Remember that careful inspection of all \$10s and \$20s of this issue is necessary. The color and centering of this example are excellent. Current census indicates 152 notes known with one other at this grade and four better.

This classic design, with its large brown seal, blue serial numbers and striking vignette of America, is one of our favorite pieces of currency. Fewer than sixty pieces are known of this number in all grades combined, including those in museum and government hands. This note comes from the run that has supplied most all of the high-grade examples of this beautiful type. A number of pieces have been on the market in recent years, realizing in the \$15,000-\$43,000 range, depending in part on the note's quality, and in part on the number of bidders. The Rose Bell Collection was fortunate to have an amazing group of \$1 Educationals. Both signature combinations of Tillman-Morgan (Fr. 224) and Bruce-Roberts (Fr. 225) are represented in a variety of grades that should appeal to all collectors. There has never been a better time to pick out a \$1 Educational and begin collecting this series.

The face design of History Instructing Youth is surrounded by many of the 19th century inventors, artists and scholars. IMPRESSIVE BLACK BACK 1880 \$20 SILVER CERTIFICATE

1801

1802 There are three different signature combinations for this beautiful and rare type. There are 32 of this signature combination in collectors' hands, but there are no UNCs known. Nine of those appear to be graded like this peach - some days AU and some days XF/AU. As beautiful as you are likely to find on this type. No matter how hard you look, this will always be near the top of those known. Look this beauty over carefully as the colors are beautiful, the overall appearance is top notch and its desirability as a type note is as high as possible. In 2006 this note sold as AU and in 2007 as a '45' at \$21,850; now it's a '40'. No doubt it will bring even more because it has the look and the eye appeal. A great Black Back \$20. IMPORTANT \$100 WATERMELON

1819 Fr. 377 \$100 1890 Admiral David Farragut was born July 5, 1801 and was the Navy's senior during the America Civil War, as well as the first full admiral of the U.S. Navy. At only twelve years old he was given his first command during the War of 1812; that of a prize ship taken by the USS Essex, which he returned to port safely. His role was integral in the American Civil War, being largely responsible for the capture of New Orleans and for his victory at the Battle of Mobile Bay. It is from this battle that his famous quote comes: "Damn the torpedoes, full speed ahead!" He died August 14, 1870, and has four monuments in his honor as well as numerous places and items named after him, undoubtedly none as prestigious as his portrait on the \$100 1890 and 1891 Treasury Coin Notes. The Watermelon note remains the single most recognizable note among knowledgeable collectors of U.S. currency today. It has been so named for the similarity of the design within the oblong areas on the back of the note to the stripes on a watermelon (I guess they never saw Black Diamond watermelons). This note last appeared in public auction as part of the Levitan Collection where it sold to the same buyer of the Grand Watermelon note. Well, we sold them again in 2005, and this was not part of that collection. PCGS has downgraded William A. Philpott's original grade of AU to XF 45, but it still remains one of the best you will ever have an opportunity to own. The census lists 34 serial numbers, but eight are permanently impounded by government collections and museums.

ONE OF FINEST KNOWN GRADED PCGS XF 45

This note is one of a group that falls within a five serial number range which includes:

A104451 CU Treasury to Smithsonian A104453 XF 45 Levitan (this example)

A104454 AU Jason Wade, Bebee, ANA Museum

This makes me curious as to the real quality of each, but I have not examined either of the others. In 2005 we sold the following notes: March 2005 (Fine 12) \$24,150; August 2005 (XF 40) \$143,750;

October 2005 (PCGS 50) \$207,000; and November 2005 (PCGS 45) \$105,800. As part of the Great Lakes Collection we sold an XF at \$143,750, and in the Rickey Collection we sold a PCGS AU 50 for \$207,000.

Also, in May 2005 Heritage sold a Ch. New for \$356,500. Privately held notes have been listed with grades ranging from VG to CU, (with one unknown) as follows: A4274 VF A8423 Fine A26415 CGA XF 45 A27644 VF+ A12126 AU A17645 VG Fine A9108 VF Fine VG A45094 PCGS VF 30 A67171 CU

A117375 VF + A117656 AU A118783 VF-XF

This note has been graded XF 45 by both grading services and there are now two others graded XF 45 as well as one graded AU 50. This note still remains, beyond a doubt, one of the finest known. Last time it sold, in 2007, it realized \$253,000. This June we sold a VF 30 at \$172,500 with lots of interest. No doubt they will want this example even more.

Fr. 708 1820 1918 **Boston** An absolutely gorgeous note with great original embossing and four leviathan margins. The eye appeal of this lovely piece is that of a Gem all the way and even with a couple of light bends it still fulfills the requirement for the grade.

STAGGERING QUALITY

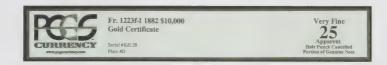

1916 Fr. 1200 \$50 1922 Let's face it...fifty bucks was a heck of a lot of money when this note was issued, and when Franklin D. Roosevelt recalled the gold and Gold Certificates in 1934, not many people had the money or desire to save what had fast become such an irrelevant item of the not so distant past. This is my platform for extolling the virtues of high denomination Gold Certificates like this one. While not the finest graded, no doubt it is among them. It has great centering, amazing color and premium paper quality.

GOLD CERTIFICATE FRAGMENT \$10,000 1882

1917 Fr. 1223f-I 1882 \$10,000 Fragment Imagine my surprise at the recent Philadelphia show when I was called over to a table and asked, "Want to sell this?" and "Do you know what it's worth?" Well, I blurted out something stupid and then was politely corrected with the following story. I was told that an elderly man in his 90s had contacted this dealer about this fragment, claiming that when Franklin D. Roosevelt called in the gold and Gold Certificates he obliged by redeeming this note at the proper place. After it was properly redeemed, this fragment was returned to him. Now there are a million questions that could be asked but I can't answer any of them. What I do know is that somehow this gentleman acquired this original 1882 \$10,000 Gold Certificate after redemption as a souvenir and it remained in his possession until recently. Personally I have never seen a piece cancelled like this before. A story provided by Peter Huntoon lends understanding as to why this fragment exists in its current state. Two different agencies oversaw the redemption of unfit currency, one reporting to the Secretary of the Treasury and the other to the Treasurer. Most of the sorting was done by the Federal Reserve Banks when they were segregated by class and then placed in 100 note straps (doubt that was possible here). The next step was to cancel them by perforation. The strapped notes were then halved lengthwise. The lower halves are shipped to the Federal Reserve Issue and Redemption Division, Secretary of the Treasury. Upon arrival the bank is notified by telegraph and the tops are shipped to the to the National Redemption Division under the Treasurer. After everything checked out and was recorded, the notes were destroyed by macerating machinery. All this was started after a simpler process of clipping all four corners proved flawed when notes showed up for redemption with clipped corners, so the process was changed. I have no way of knowing how this gentleman was able to keep his lower portion or whether it was done by the Secretary of the Treasury himself. We do know it's been cancelled, severed lengthwise and you can't use it. What if it was saved whole? PCGS notes: hold punch cancelled, portion of genuine note.

MISCELLANEOUS

1918 Collage of Large Size US Paper Money No doubt this frame was an integral part of a banker's office for most of the last century or so. The frame contains fragments of virtually every type of US currency circulating around 1900. The notes have been ripped from the more than 50% of each that was left for redemption. It would be a challenge to recreate a more interesting artistic frame after a light cleaning. If you don't want that then it would be great for repairs. This collage is approximately 19" x 24"

Fort Wayne, First NB, 11 Fr. 387 \$2 Original This Deuce is the only surviving example of this early bank, charter #11. It has a few flaws. Fort Wayne, NB, 865 Fr. 380 \$1 Original
This bank was chartered in 1865 and closed in 1885 after
issuing First Charter period notes through the \$20. This note is
one of only four surviving examples. Although the trim is a bit
uneven, the quality is high and the missing corner tip is not a
big deal. This note is pen signed and attractive overall. In
2007 this cost \$6,900 at Heritage but that market is no longer
as active for \$1 First Charters. From the George Fitzgerald

VIRGINIA

Front Royal, NB, 2967 Fr. 624 \$10 1902ND

A rather rare and seldom available note with a great title from the only issuing bank in small Warren County, at the head of the Shenandoah Valley. Front Royal got its name from the fact that it was on the border between French and English controlled areas of North America, in French "le front royale". The bank issued large notes only before liquidating at the beginning of 1930. Just 10 notes are known, far too few for the many collectors of good Virginia notes.

There is a small group of these high-grade Blue Seals reported, but they haven't been available until just recently. This example is exceptionally bright and exhibits nice original embossing. Morgantown, Second NB, 2458 Fr. 1802-1 \$20
1929T1 For a large town that is home to West Virginia
University, notes from this location have always been both
sought-after and quite scarce. The bank was closed by the
receiver in 1931, and just 5 small notes are currently reported,
with this new addition to the census bearing the lowest serial
number of any of them. Signatures are H. Riggs, Cashier, and
Aaron J. Garlow, President.

This example is well used and has its flaws, but knowledgeable collectors will recognize this as an opportunity not to be missed. This is the only serial #1 note from this bank of any type, including small size. Issued early, when the Brownbacks carried the bank's first title, this note is one of six examples with that nomenclature. Some light staining is noticed about the center and the edges have some splits, but this states' eager buyers may well overlook those faults in order to add an early #1 note to their collection. The last time this note sold it brought \$9,200 in 2005. It should bring as much today.
